

Dear Ondřej,

What a pleasure was for me to rediscover those études by Mazas (Études spéciales op 36/1) that I spented quite a lot of time in my youth with my teacher Ben... Beautiful edition and a great idea for the accompanying voice as well, I use Ben regularly for my students to compete in sight-reading, if somebody makes mistake, the next one plays, always in rotations, in duets, a real pleasure and laugh. And they offer as well a great orientation through the violin technique.

Thanks a lot for your work!

Gordan
